

Incentive Pool API Methods

Last Updated: Tuesday, June 15, 2021

Available API methods

- [Get Incentive Pools](#)
- [Show an Incentive Pool](#)
- [Create an Incentive Pool](#)
- [Update an Incentive Pool](#)

An Incentive Pool entity is a collection of Incentive Codes.

Get Incentive Pools

```
GET /companies/:company_key/incentives/pools
```

Response

An array of all Incentive Pools for the given company.

Show an Incentive Pool

```
GET /companies/:company_key/incentives/pools/:pool_id
```

Create an Incentive Pool

```
POST /companies/:company_key/incentives/pools
{
  "name": "Test Pool",
  "issuance_allowed": true,
  "redemption_allowed": true,
  "incentive_codes": {
    "low_threshold": 1000,
    "max_characters": 10
  },
  "distribution": {
    "method": "unique"
  },
  "notification_email_address": "your.name@your.company.com"
}
```

Update an Incentive Pool

```
PUT /companies/:company_key/incentives/pools/:pool_id
{
  "name": "Test Pool",
  "issuance_allowed": true,
  "redemption_allowed": true,
  "incentive_codes": {
    "low_threshold": 1000,
    "max_characters": 10
  },
  "distribution": {
    "method": "unique"
  },
  "notification_email_address": "your.name@your.company.com"
}
```
