

What's in Version 2

Last Updated: Thursday, April 12, 2018

To fully serve its international customers, Vibes released version 2 of the Vibes Mobile Engagement Platform APIs in 2016 to include support for international E.164 phone numbers.

Topics in this Section

Note: Version 2 only accepts MDNs in E.164 format with a country code. MDNs without a country code are considered invalid.

E.164 is the official format for all international phone numbers that includes a plus sign followed by the country code and phone number.

For example:

- U.S.: +12025550132
- U.K.: +441632960964
- Brazil: +5511991234567
